

Dear Alpine Customer,

Thank you for your purchase.

Due to the U.S. Department of Energy change to minimum efficiency standards that took effect on January 1, 2015, this piece of equipment needs to be installed and registered at www.goodmanmfg.com prior to June 30th, 2016. The registration of your equipment before June 30th, 2016 is essential to your warranty coverage, as well as to ensuring that the unit complies with federal law, as instituted by the U.S. Department of Energy, effective January 1, 2015.

The map below references the efficiency standards as broken up by territory, for all new product that has been manufactured after January 1st, 2015. Based on the date of your product's manufacture, you are able to install a unit that may not conform to these standards, when installed and registered prior to the date of June 30th, 2016.
