

AIR CONDITIONERS

13 to 16 SEER

MAKE THE EASY CHOICE FOR
YOUR FAMILY'S HOME COMFORT.

SOME DECISIONS ARE TOUGH. THIS ONE ISN'T.

When you consider a Blueridge system, quality and value are a given. You're getting peace of mind with great features and a smart design—and best of all, you get it right now.

Efficiency ratings

Consider the SEER ratings that measure system performance. Higher numbers mean greater efficiency and lower energy bills for you.

Superior coil protection

For durability in harsh environments, corrosion protection technology is featured on select Blueridge air conditioner units, protecting against corrosive elements and extending the life of your air conditioner for years to come.

Immediate savings

With a high-efficiency system, you may qualify for local utility and energy incentives as well as rebates. Your Blueridge professional can provide you with the latest information so you can take full advantage of available money-saving opportunities.

Is it time to replace your unit?

It can be hard to decide whether to repair or replace. Here are a few things to keep in mind when you're deciding:

- **Age of the unit** – Consider a new unit if your air conditioner is 10-12 years old.
- **Updates** – New technology makes units more efficient and easier to control. Plus, older units use R-22 refrigerant that's scarce and expensive to recharge.
- **Repair costs** – Once repair costs exceed 50% of the cost of a new unit, a new purchase might be in order.

WHATEVER YOUR NEEDS, A BLUERIDGE AIR CONDITIONER IS THE RIGHT CHOICE, RIGHT NOW.

BA16L

Saving you more, month after month.

The BA16L delivers significant energy savings and efficiencies of up to 16 SEER when paired with a matched Blueridge variable-speed or constant-torque furnace or air handler. Your Blueridge dealer can recommend the right pairing for your home.

BA13L*

Worry-free and energy-efficient performance.

Enjoy season after season of worry-free operation. The BA13L delivers the highest level of reliability and drives greater efficiency, so you'll spend less on utility bills.

BLUERIDGE - THE DECISION IS EASY.

Blueridge delivers category-topping performance and outstanding value without compromising quality. When it's time to make the best choice to insure your family's comfort for years to come, the decision is easy - Get Blueridge.

Due to our policy of continuous improvement, specifications are subject to change without notice.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your contractor for details or visit www.energystar.gov.
