

AIR HANDLERS

Compact BE5 Series

THE RIGHT CHOICE FOR
CONSISTENT COMFORT
AND EFFICIENCY.

SOME DECISIONS ARE TOUGH. THIS ONE ISN'T.

When you consider a Blueridge system, quality and value are a given. You're getting peace of mind with great features and a smart design—and best of all, you get it right now.

Efficiency ratings

When matched with a Blueridge Heat Pump or Air Conditioner, your system boosts heating (HSPF) and cooling (SEER) ratings, helping to lower your energy bills.

Superior coil protection

Durable in harsh environments, protection technology is featured in all Blueridge air handler units, helping to protect against harsh elements and extend the life of your air handler for years to come.

Long-term savings

The blower in an air handler operates all year long, circulating hot or cold air throughout your home. Compared to a fixed-speed blower motor, a constant-torque or variable-speed blower motor provides everyday savings on your energy bill.

Is it time to replace your unit?

It can be hard to decide whether to repair or replace. Here are a few things to keep in mind when you're deciding:

- **Age of the unit** – Consider a new unit if your air handler is 10-12 years old.
- **Updates** – New technology makes units more efficient and easier to control.
- **Repair costs** – Once repair costs exceed 50% of the cost of a new unit, a new purchase might be in order.

WHATEVER YOUR NEEDS, A BLUERIDGE AIR HANDLER IS THE RIGHT CHOICE, RIGHT NOW.

BE5C

Built for reliability

Designed to deliver dependable comfort, the BE5C's permanent split capacitor (PSC) motor delivers consistent airflow throughout the seasons. For the best performance, pair this air handler with a matched BlueRidge heat pump or air conditioner.

BE5E

Cool savings every day

An upgraded constant torque blower motor uses up to 30% less energy than the BE5E. Pair this air handler with a matched BlueRidge heat pump or air conditioner for enhanced energy savings all year long.

BE5V

Comfort throughout the year

A variable-speed motor that controls temperature and humidity to help keep you comfortable. The BE5V is the right choice for high-humidity environments and homeowners who prioritize energy savings.

BLUERIDGE - THE DECISION IS EASY.

Blueridge delivers category-topping performance and outstanding value without compromising quality. When it's time to make the best choice to insure your family's comfort for years to come, the decision is easy - Get Blueridge.
