

HEAT PUMPS

14 to 16 SEER, 8.2 to 9.0 HSPF

RELIABLE COMFORT,
RIGHT WHEN YOU NEED IT.

SOME DECISIONS ARE TOUGH. THIS ONE ISN'T.

When you consider a Blueridge system, quality and value are a given. You're getting peace of mind with great features and a smart design—and best of all, you get it right now.

Efficiency ratings

Consider the SEER and HSPF ratings that measure system performance. Higher numbers mean greater efficiency and lower energy bills for you.

Superior coil protection

For durability in harsh environments, corrosion protection technology is featured on select Blueridge heat pump units, helping to protect against corrosive elements and extend the life of your heat pump for years to come.

Immediate savings

With a high-efficiency system, you may qualify for local utility and energy incentives as well as rebates.[†] Your Blueridge professional can provide you with the latest information to help you take full advantage of available money-saving opportunities.

Is it time to replace your unit?

It can be hard to decide whether to repair or replace. Here are a few things to keep in mind when you're deciding:

- **Age of the unit** – Consider a new unit if your heat pump is 10-12 years old.
- **Updates** – New technology makes units more efficient and easier to control. Plus, older units use R-22 refrigerant that's scarce and expensive to recharge.
- **Repair costs** – Once repair costs exceed 50% of the cost of a new unit, a new purchase might be in order.

[†] Check with your local utilities to confirm eligibility. Rebates and incentives for efficiency vary by locality and utility. Blueridge does not make any representation, warranty, guarantee, or other assurance as to whether the each model qualifies or is eligible for rebates in your local area.

WHATEVER YOUR NEEDS, A BLUERIDGE HEAT PUMP IS
THE RIGHT CHOICE, RIGHT NOW.

BHP15L

Helping to save you more, month after month.

The BHP15L delivers significant energy savings and efficiencies of up to 15 SEER and 8.5 HSPF, when paired with a matched Blueridge variable-speed or constant-torque furnace or air handler. Your Blueridge dealer can recommend the right pairing for your home.

*Check with your local utilities to confirm eligibility. Rebates and incentives for efficiency vary by locality and utility. Blueridge does not make any representation, warranty, guarantee, or other assurance as to whether the each model qualifies or is eligible for rebates in your local area.

BLUERIDGE - THE DECISION IS EASY.

Blueridge delivers category-topping performance and outstanding value without compromising quality. When it's time to make the best choice to insure your family's comfort for years to come, the decision is easy - Get Blueridge.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your contractor for details or visit www.energystar.gov.
