

GAS FURNACES

90%+ AFUE

GET EFFICIENCY AND SMART DESIGN.
AND GET IT NOW.

SOME DECISIONS ARE TOUGH. THIS ONE ISN'T.

When you consider a Blueridge gas furnace, quality and value are a given. You're getting peace of mind with great features and a smart design—and best of all, you get it right now.

Efficiency ratings

Consider the AFUE (Annual Fuel Utilization Efficiency) ratings that measure how efficiently the fuel is used by the furnace. Higher numbers mean greater efficiency and lower gas bills for you.

Everyday savings

The blower in a gas furnace operates all year long to circulate hot air or cold air throughout your home. Compared to a fixed-speed (PSC) blower motor, a constant-torque or variable-speed blower motor will provide everyday savings on your electric bill.

Is it time to replace your gas furnace?

It can be hard to decide whether to repair or replace. Here are a few things to keep in mind when you're deciding:

- **Age of the furnace** – With the average life span of furnaces being 10-12 years, it's worth considering investing in a new one, as repairs may not be worth the investment.
- **Updates** – New technology is making furnaces more efficient and easier to use and control. Rigorous run testing of each furnace in our factory helps ensure reliable performance in your home.
- **Repair costs** – Once repair costs exceed 50% of the cost of a new gas furnace, a new purchase might be in order. This is especially true if you'll be staying in your house several more years.

WHATEVER YOUR NEEDS,
A BLUERIDGE FURNACE IS THE
RIGHT CHOICE, RIGHT NOW.

96% AFUE

BG952E-V

**Perfectly controlled heat
and humidity**

- Two stage operation adjusts heat output to optimize comfort and efficiency
- Available with highly efficient Constant Torque Motor (E Model)
- Upgrade to Variable Speed Motor for quieter operation and better comfort (V Model)

96% AFUE

BG961E

**Energy-efficient and
reliable comfort**

- Constant torque motor maintains consistent airflow and even temperatures
- Uses up to 1/3 less energy than a fixed-speed blower
- 96% AFUE efficiency rating means 96% of fuel is turned into usable heat

95% AFUE

BG951E

**Efficient heating
performance**

- Constant torque motor produces consistent airflow and even temperatures
- Uses up to 1/3 less energy than a fixed-speed blower

95% AFUE

BG951

**Dependable comfort
and quiet operation**

- Unique one-piece burner design with low input capacities greatly reduces combustion noise
- 19% more fuel-efficient than a standard 80% AFUE furnace

92% AFUE

BG921

**Consistent temperatures
all winter long**

- Powerful fixed-speed motor delivers dependable comfort during heating and cooling performance
- 15% more fuel-efficient than a standard 80% AFUE furnace

PEACE OF MIND

All gas furnaces are factory run-tested to ensure reliable performance in your home. They come with a 10-year limited warranty on parts and a limited lifetime warranty on the heat exchanger.*

*Applies to residential applications only. Subject to state regulations.

BLUERIDGE - THE DECISION IS EASY.

Blueridge delivers category-topping performance and outstanding value without compromising quality. When it's time to make the best choice to insure your family's comfort for years to come, the decision is easy - Get Blueridge.
