

AlumaFin7

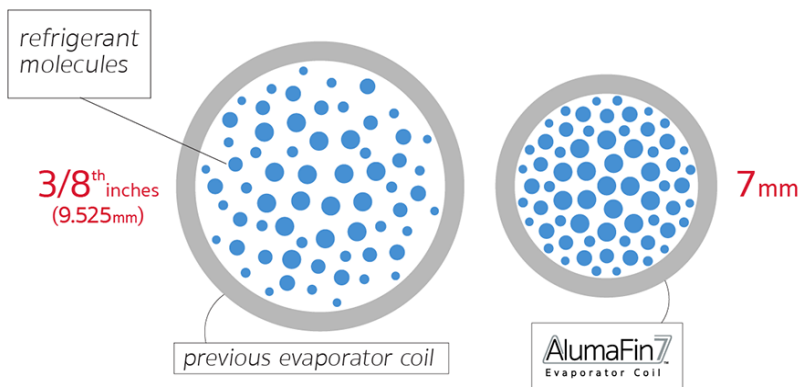

Evaporator Coil

Take a Look at our New Alumafin7 Coil!

Our new CAPFA coil has a smaller design, but boasts more features and benefits.

- Shorter coil compared to our CAPF model, easier for installation in tight spaces (see above for comparison)
- Patented grooved tubing and multi-louvered fin design for a better heat transfer
- The new 7mm grooved aluminum tubing help provide enhanced turbulence of refrigerant (see below)

- Single piece access panel with a tight seal helps keep conditioned air from escaping
- Optimized for use with R-410A refrigerant
- AHRI certified
