Thank goodness for Goodman.™

Air Conditioning & Heating

ENJOY THE COMFORT OF A GOODMAN® BRAND AIR CONDITIONER

Beat the summer heat with a Goodman® brand DSX16 R-410A Air Conditioner – a unit that provides you with high-efficiency, reliable performance, quiet operation and what we believe to be some of the best standard warranties and extended service plans in the industry. This air conditioner's worry-free operation and outstanding features add up to outstanding comfort and energy-saving value compared to lower SEER units.

ENERGY-SAVING EFFICIENCY WITH GOODMAN

When properly matched and installed, your Goodman brand DSX16 Air Conditioner offers up to 16 SEER high-efficiency performance. "SEER" stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the efficiency of air conditioners. The higher the SEER, the greater the efficiency—and the lower the operating cost.

In many applications, the efficiency of your Goodman brand DSX16 Air Conditioner can be enhanced by using it in conjunction with a Goodman brand Gas Furnace that includes a variable-speed blower motor. Talk to your Goodman dealer about opportunities to optimize the efficiency of your new unit.

WHAT IS R-410A?

R-410A is a chlorine-free refrigerant product that is environmentally-friendlier than R-22 refrigerant. In fact, the Clean Air Act requires that, as of 2010, all new air conditioning units manufactured in North America must use chlorine-free refrigerants. So by purchasing an R-410A air conditioner, you're purchasing the latest in refrigerant technology.

EXPERIENCE QUIET COMFORT

You can be assured that your Goodman brand Air Conditioner will provide you with quiet cooling all year long. To minimize operating sounds, we've acoustically engineered our systems with enhancements that include a compressor sound-reduction cover made of high-density foam and a specially-designed wire discharge grille. Additionally, the two-speed operation of the condenser fan motor allows your outdoor fan to run more often at a lower speed.

*Unmatched combination of performance, efficiency and affordability.
That's just what you'll get with Goodman.*

COMMITMENT TO QUALITY ENGINEERING

Always in pursuit of the highest performance and efficiency, our engineers are constantly evaluating the latest and most reliable technology and applying it to every Goodman brand Air Conditioner.

We also design our air conditioners to be some of the easiest to maintain in the industry. But best of all, the operation of your air conditioner can be reviewed by your contractor with the use of

the ComfortAlert™ Diagnostics module that we build into all of our premium Goodman brand air conditioning units. This module monitors data from the unit, accurately detects the cause of system-related issues, and communicates the situation to the contractor through an LED indicator using a series of flash codes.

OUTSTANDING PERFORMANCE

With the exceptional materials, engineering and workmanship that are part of every Goodman brand product, we confidently back our DSX16 Air Conditioners with what we believe to be some of the best warranties in the industry. These warranties include the following:

- **Lifetime Compressor Limited Warranty*** for as long as you own your own home
- **10-Year Parts Limited Warranty*** on all remaining functional parts

For even greater peace of mind, ask your dealer or visit our web site at www.goodmanmfg.com for more details about **GoodCare**®, an affordable Parts and Labor Extended Service Plan for your entire Goodman brand HVAC system.†

ADDITIONAL INFORMATION.

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

IMPRESSIVE FEATURES AND BENEFITS:

GOODMAN® BRAND DSX16

† Extended Service Plans not available in all states. Ask your dealer for full details.

GOODMAN: THE RECOGNIZED INDUSTRY LEADER

Every Goodman brand heating and air conditioning system is designed, engineered, and manufactured with pride. All employees follow strict, quality-driven processes to ensure that all Goodman products offer the legendary performance that has made the brand a recognized leader in the industry. This attention to quality has resulted in the Goodman family of companies becoming the second largest unit manufacturer of residential air conditioning and heating systems in North America.

The legacy began when Harold Goodman, a former air conditioning contractor, felt that he could build a better product. His goal was, and our goal remains, to manufacture air conditioning and heating equipment that performs more reliably, lasts longer than the competing products and eliminates time-consuming installation problems.

And, of course, he endeavored to make air conditioning and heating products as affordable as possible. Harold accomplished his goal and today the Goodman family of companies manufactures heating, air conditioning and ventilating equipment in modern facilities.

Air Conditioning & Heating

Our continuing commitment to quality products may mean a change in specifications without notice.
