NOT SURE WHAT A FUNCTION DOES?
Refer to the **How to Use Basic Functions** and **How to Use Advanced Functions** sections of this manual for a detailed description of how to use your air conditioner.

SPECIAL
- Button designs on your unit may differ slightly from the example shown.
- If the indoor unit does not have a particular function, pressing that function's button on the remote control will have no effect.
- When there are wide differentces between "Remote controller Manual" and "USER'S MANUAL" on function description, the description of "USER'S MANUAL" takes precedent.

Handling the Remote Controller

Inserting and Replacing Batteries

Your air conditioning unit may come with two batteries (some units). Put the batteries in the remote control before use.

1. Slide the back cover from the remote control downward, exposing the battery compartment.
2. Insert the batteries, paying attention to match up the (+) and (-) ends of the batteries with the symbols inside the battery compartment.
3. Slide the battery cover back into place.
ⓘ BATTERY NOTES

For optimum product performance:
· Do not mix old and new batteries, or batteries of different types.
· Do not leave batteries in the remote control if you don't plan on using the device for more than 2 months.

BATTERY DISPOSAL

Do not dispose of batteries as unsorted municipal waste. Refer to local laws for proper disposal of batteries.

TIPS FOR USING REMOTE CONTROL

· The remote control must be used within 8 meters of the unit.
· The unit will beep when remote signal is received.
· Curtains, other materials and direct sunlight can interfere with the infrared signal receiver.
· Remove batteries if the remote will not be used more than 2 months.
NOTES FOR USING REMOTE CONTROL

The device could comply with the local national regulations.

· In USA, this device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

● Reorient or relocate the receiving antenna.
● Increase the separation between the equipment and receiver.
● Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
● Consult the dealer or an experienced radio/TV technician for help.
● Changes or modifications not approved by the party responsible for compliance could void user's authority to operate the equipment.
ON/OFF
Turns the unit on or off.

MODE
Scrolls through operation modes as follows: AUTO →COOL → DRY→HEAT →FAN

TEMP ∧
Increases temperature in $1^{o}C(1^{o}F)$ increments. Max. temperature is $30^{o}C(86^{o}F)$.

ECO (Not Supported)
Press this button to enter the energy efficient mode.

SET
Scrolls through operation functions as follows:
Fresh($\oslash$) → Sleep( ) →
Follow Me($\stackrel{\circ}{\beta}$) →
AP mode($\widehat{\;\cdot\;}$) →Fresh...

The selected symbol will flash on the display area, press the OK button to confirm.

OK
Used to confirm the selected functions

TIMER
Set timer to turn unit on or off

TEMP Decreases ∨
temperature
in $1^{o}C(1^{o}F)$ increments.
Min. temperature is
$17^{o}C(62^{o}F)$.

SHORTCUT
Used to restore the current settings or resume previous settings.

FAN SPEED
Selects fan speeds in the following order:
AUTO →LOW→MED →HIGH
NOTE: Holding this button down for 2 seconds will activate Silence feature.

CLEAN
Used to start/stop the Self Clean function.

LED
Turns indoor unit's LED display and air conditioner buzzer on and off (model dependent), which create a comfortable and quiet environment.

SWING
Starts and stops the horizontal louver movement. Hold down for 2 seconds to initiate vertical louver auto swing feature.

Turbo
Enables unit to reach preset temperature in shortest possible time.

Model: 17317000A63547 - RG10A4(D1)/BGEFU1
NOTE: For RG10A4(D1)/BGEFU1 press together∧ & ∨ buttons at the same time for 3 seconds will alternate the temperature display between the °C & °F scale.

Fresh, Eco,and UV-C lamp functions are not supported modes on this device.

ECO display(**Not Supported**) Displays when ECO feature is activated

LOCK display
Displays when LOCK feature is activated.

FAN SPEED display

Displays selected fan speed:

LOW

MED

HIGH

AUTO

Temperature/Timer/Fan speed display

Displays the set temperature by default, or fan speed or timer setting when using TIMER ON/ OFF functions.

- Temperature range:

  17-30°C/62-86 ^{o}F (20-28 C) (Model dependent)

- Timer setting range: 0-24 hours

  This display is blank when operating in FAN mode.

Note:
All indicators shown in the figure are for the purpose of clear presentation. But during the actual operation, only the relative function signs are shown on the display window.

How to Use Basic Functions

Basic operation

ATTENTION! Before operation, please ensure the unit is plugged in and power is available.
COOL Mode

1. Press the MODE button to select **COOL** mode.
2. Set your desired temperature using the **TEMP** ∧ **or TEMP** ∨ button.
3. Press **FAN** button to select the fan speed: AUTO, LOW, MED or HIGH.
4. Press the **ON/OFF** button to start the unit.

SETTING TEMPERATURE

The operating temperature range for units is 17-30°C (62-86°F)/20-28 C(68-82.4°F). You can increase or decrease the set temperature in 1°C (1°F) increments.

AUTO Mode

In AUTO mode, the unit will automatically select the COOL, FAN, or HEAT operation based on the set temperature.

1. Press the **MODE** button to select **AUTO**.
2. Set your desired temperature using the **TEMP**

   ∧ or **TEMP** ∨ button.
3. Press the **ON/OFF** button to start the unit.

NOTE: FAN SPEED can't be set in AUTO mode.
FAN Mode

1. Press the **MODE** button to select **FAN** mode.
2. Press **FAN** button to select the fan speed: AUTO, LOW, MED or HIGH.
3. Press the **ON/OFF** button to start the unit.

NOTE: You can't set temperature in FAN mode. As a result, your remote control's LCD screen will not display temperature.
1. Press the **MODE** button to select **DRY**.
2. Set your desired temperature using the **TEMP** ∧ or **TEMP** ∨ button.
3. Press the ON/OFF button to start the unit.

NOTE: FAN SPEED cannot be changed in DRY mode.

HEAT Mode

1. Press the MODE button to select **HEAT** mode.
2. Set your desired temperature using the **TEMP** ∧ or **TEMP** ∨ button.
3. Press **FAN** button to select the fan speed: AUTO, LOW, MED or HIGH.
4. Press the **ON/OFF** button to start the unit.

NOTE: As outdoor temperature drops, the performance of your unit's HEAT function may be affected. In such instances, we recommend using this air conditioner in conjunction with other heating appliances.

Setting the TIMER

TIMER ON/OFF - Set the amount of time after which the unit will automatically turn on/off.

TIMER ON setting

Press TIMER button to initiate the ON time sequence.

Press Temp. up or down button for multiple times to set the desired time to turn on the unit.
Point remote to unit and wait 1sec, the TIMER ON will be activated.

TIMER OFF setting

Press TIMER button to initiate the OFF time sequence.

Press Temp. up or down button for multiple times to set the desired time to turn off the unit.

Point remote to unit and wait 1sec, the TIMER OFF will be activated.

NOTE:

1. When setting the TIMER ON or TIMER OFF, the time will increase by 30 minutes increments with each press, up to 10 hours. After 10 hours and up to 24, it will increase in 1 hour increments. (For example, press 5 times to get 2.5h, and press 10 times to get 5h,) The timer will revert to 0.0 after 24.
2. Cancel either function by setting its timer to 0.0h.

TIMER ON & OFF setting(example)

Keep in mind that the time periods you set for both functions refer to hours after the current time.

| Timer starts | | | Unit turns on | | | Unit turns off |

| Current time 1PM | 2:00 PM | 3:00 PM | 3:30 PM | 4PM | 5PM | 6PM |

2.5 hours

5 hours

Example: If current timer is 1:00PM, to set the timer as above steps, the unit will turn on 2.5h later (3:30PM) and turn off at 6:00PM.

## Swing function

Press Swing button

The horizontal louver will swing up and down automatically when pressing Swing button. Press again to make it stop.
Keep pressing this button more than 2 seconds, the vertical louver swing function is activated. (Model dependent)

LED DISPLAY

Press LED button

Press this button to turn on and turn off the display on the indoor unit.

Press this button more than 5 seconds(some units)

Keep pressing this button more than 5 seconds, the indoor unit will display the actual room temperature. Press more than 5 seconds again will revert back to display the setting temperature.

Silence function

Keep pressing Fan button for more than 2 seconds to activate/disable Silence function (some units). Due to low frequency operation of compressor, it may result in insufficient cooling and heating capacity. Press ON/OFF, Mode, Sleep, Turbo or Clean button while operating will cancel silence function.

ECO function

Press ECO button(**Not Supported**)

FP function
The unit will operate at high fan speed (while compressor on) with temperature automatically set to 8 C/46 F.

Note: This function is for heat pump air conditioner only.

Press this button 2 times during one second under HEAT Mode and setting temperature of 17 C/62 F to activate FP function.
Press On/Off, Sleep, Mode, Fan and Temp. button while operating will cancel this function.

LOCK function
Press together **Clean** button and **Turbo** button at the same time more than 5 seconds to activate Lock function. All buttons will not respond except by pressing these two buttons for two seconds again to disable locking.

RMS2-01

SHORTCUT function

Press SHORTCUT button(some units)

Push[`Ythis button when remote controller is on, the system will automatically revert back to the previous settings including operating mode, setting temperature, fan speed level and sleep feature (if activated).

If pushing more than 2 seconds, the system will automatically restore the current operation settings including operating mode, setting temperature, fan speed level and sleep feature (if activated).

Clean Function

Press CLEAN button

Airborne bacteria can grow in the moisture that condenses around heat exchanger in the unit. With regular use, most of this moisture is evaporated from the unit.
By pressing the CLEAN button, your unit will clean itself automatically. After cleaning, the unit will turn off automatically. Pressing the CLEAN button mid-cycle will cancel the operation and turn off the unit. You can use CLEAN as often as you like.
Note: You can only activate this function in COOL or DRY mode.
TURBO Function

Press TURBO button

When you select Turbo feature in COOL mode, the unit will blow cool air with strongest wind setting to jump-start the cooling process.
When you select Turbo feature in HEAT mode, for units with Electric heat elements, the Electric HEATER will activate and jump-start the heating process.

SET function

- Press the SET button to enter the function setting, then press SET button or TEMP ∨ or TEMP ∧ button to select the desired function. The selected symbol will flash on the display area, press the OK button to confirm.
- To cancel the selected function, just perform the same procedure as above.
- Press the SET button to scroll through operation functions as follows:

  Fresh *(⌀) → Sleep*(☽) → Follow Me(⚇ → AP mode(⌖)
  [*]: If your remote controller has Fresh and Sleep button, you can not use the SET button to select the Fresh (not supported)and Sleep feature.

FRESH function(⌀) (not supported) :

Sleep function(☽) :

The SLEEP function is used to decrease energy use

while you sleep (and don't need the same temperature settings to stay comfortable). This

function can only be activated via remote control. For details review "sleep function" in the users manual

> **Note:** The SLEEP function is not available in FAN or DRY mode.

AP function(⌖)(some units) :

Choose AP mode to do wireless network configuration. For some units, it doesn't work by pressing the SET button. To enter the AP mode, continuously press the LED button seven times in 10 seconds.

Follow me function(⚇):

The FOLLOW ME function enables the remote control to measure the temperature at its current location and send this signal to the

air conditioner every 3 minutes interval. When using AUTO, COOL or HEAT modes, measuring ambient temperature from the remote control (instead of from the indoor

unit itself) will enable the air conditioner to optimize the temperature around you and ensure maximum comfort.

NOTE: Press and hold Turbo button for seven seconds to start/stop memory feature of Follow Me function.

- If the memory feature is activated", **On**" displays for 3 seconds on the screen.
- If the memory feature is stopped", **OF**" displays for 3 seconds on the screen.
- While the memory feature is activated, press the ON/OFF button, shift the mode or power failure will not cancel the Follow me function.
