PLAN VIEW (looking up / top-down)

SIDE ELEVATION

JOIST FIT CHECK – 24" O.C. (1-1/2" joists → 22 1/2" clear)

NOTES

1. Body 22 7/16" sq x 10 7/16" H, grille 24 13/32" sq x 1 7/8" per manufacturer service manual – same for 09K/12K/18K (24K is larger, not covered).
2. 23 3/4" overall across the side tabs is a field measurement (applies to 09K/12K/18K). Per-side split ~5/8" / ~11/16" is estimated. Chamfers, tab locations and lineset-corner bracket offset are approximate – verify on site before framing.
3. Will NOT fit between standard 24" O.C. joists as-is; framing/header required. Min. clearance: sides 59", top 3/4".
4. Weights (mfr): unit net 37.5 lb / gross 48.5 lb; panel net 6.6 lb / gross 9.9 lb.
