Sensi Room Sensor

Sensi room sensors are designed to remotely monitor and control temperatures in different rooms of your home. When paired with the Sensi Touch 2 smart thermostat, room sensors can help reduce hot and cold spots by prioritizing or balancing temperatures where you need it most.

TEMPERATURE AND HUMIDITY MONITORING

View and manage room temperatures and humidity levels across your home.

QUICK CONNECTION

Setup is easy through your smart thermostat. Once connected, place your sensor where you need it using the stand or on a wall.

EXTENDED RANGE

Connect up to 15 Sensi room sensors with a range of approximately 100ft.

PRIORITIZE ROOM TEMPERATURE

Select a sensor to prioritize your temperature settings to a particular room that matters most to you.

BALANCED COMFORT

Balance your temperature settings across both your thermostat and sensors, helping to manage hot and cold spots throughout your house.

WORKS WITH SENSI TOUCH 2

Compatible with the Sensi Touch 2.
